About VEC

VERITAS Engineering & Consultant (VEC) is one of the leading safety audit and consultancy firms in Bangladesh working in industrial, commercial and residential sectors especially in Ready Made Garments (RMG) sector since last decade. Our core functions are Preliminary Assessments on Structural Integrity, Electrical and Fire Safety, Detail Engineering Assessment (DEA), CAP Management, Green Building (LEED Certified under USGBC) consultancy for new and existing building or factories as well as designing of new RCC & Steel structures.

We do also provide training on various issues related to compliance and industrial safety of existing and new factories.

Achievements of VEC

VEC has been accomplished & successfully completed a project for the assessment of Structural integrity, Electrical and Fire safety of RMG sector, under the National Initiative (NI) supported by International Labour Organization (ILO) & DIFE of Peoples Republic of Bangladesh Government. In this project, over 1900+ safety assessments, 2100+ CAP Follow up & 725 CAP Validation have been successfully completed, which is the highest number of assessment completed by a single enterprise in Bangladesh.

VEC has been enlisted as an Inspection Firm for Structural Integration, Electrical & Fire safety of Peoples Republic of Bangladesh.

VEC has successfully completed a large number (100+ ACCORD, ALLIANCE & DIFE) of Detailed Engineering Assessment (DEA) with Seismic Vulnerability evaluation, Analysis, Layout, Design & Reporting for Structure, Electrical & Fire safety in Industrial, Commercial & Residential Sector.

VEC has successfully completed a large number (25+) Construction Project in Industrial, Commercial & Residential Sector.

Bangladesh Apparel & Safety Exposition 2015 at Hotel Radisson Blu, Chittagong.

Workshop-Sustainable Development and Green Building Opportunity in Bangladesh.

Our Vision

- e Our main goal is to set a benchmark in the professional field.
- e To play a pioneer role in providing engineering solutions with excellence.
- e Always committed to be innovative and maintain quality in order to meet the needs of our clients.
- e To be caring and trustworthy for our stakeholders like our clients, employees and society in general.

Our Mission

- e To provide International standard services using best talents from home and abroad.
- e To provide peerless services regarding engineering solutions as per our clients' desires.
- e We are committed to work professionally and ethically with our honorable clients delivering quality services for the development of viable successful and sustainable projects.
- e We are committed to develop high-end technology solutions with constant innovation, continuous improvement and value added services.
- e To develop and deliver value system to the clients with quality and reasonable cost with a focus on rapid progress.

Our Services

- e Detail Engineering Assessment (DEA).
- e Preliminary Assessment on Structural Integrity, Electrical & Fire Safety.
- e Energy Efficiency Audit.
- e Corrective Action Plan (CAP) management.
- e Fire prevention & protection system design.
- e Complete electrical solution for new & existing building.
- e Consultancy of GREEN factories of LEED certified under USGBC.
- e Architectural & Structural design of R.C.C & Steel Structures.
- e Construction of R.C.C. & Steel Structures.
- e Design, Drawing & installation for lightning protection system (LPS) SLD, ELD.
- e All kind of Electrical testing (Thermal, Insulation, Earth resistance etc.)
- e All kind of Structural NDT/SDT-Ferrosan , Hammer, UPV, Core cutting & Soil Test.
- e Environmental & Social Impact Assessment.

VECs Specialization

- e Own design section and lab facilities.
- e Well equipped with modern instruments for NDT and SDT test like Digital Ferro Scanner, Hilti Core Cutter, UPV Machine, Rebound Hammer Machine, GPR machine, Digital Thermographic scanner etc.
- e Social auditing and compliance.
- e Having huge working experience in Structural, Fire and Electrical Safety Assessment and Detail Structural Assessment works as per Alliance, Accord, NTPA and BNBC standard.
- e Highly qualified team of Structural, Fire and Electrical Engineers.
- e Professional and experience management supervision and workforce.
- e Working experience with various international organizations.
- e Independent oversight, monitoring and checking.

Testing on

- e Semi Destructive Test (SDT)
- e Non Destructive Test (NDT)
- e Thermography Scanning
- e Cable Insulation Resistance
- e Earth Resistance Test
- e Pile Load Test (PLT)
- e Pile Integrity Test (PIT)
- e Ferro Scanning
- e Soli Test
- e Digital Survey

Training on

- e Green Building (LEED) issues.
- e Fire Safety.
- e Electrical Safety.
- e Social Auditing.
- e Construction Management.
- e Factory Load Management.
- e Structural Safety Assessment.
- e Detail Engineering Assessment (DEA).
- e Compliance requirements for safety issues.
- e Independent oversight, monitoring and checking.

Green Building

Green Building Certification Consultant in Bangladesh

VERITAS Engineering & Consultant (VEC) is a leader in both safety assessment and Green Building Consulting Services in Bangladesh serving the country's RMG, residential and other industrial sectors. The services offered by **VEC** encompass various design and operational needs for Green Buildings and ensure high performing operations throughout the building's life-cycle. **VEC** is working with the collaboration of 360 Total Solution Ltd. (360 TSL)

Why GREEN Building Consultancy with **VERITAS Engineering & Consultant (VEC)**:

- e We explain all aspects of Green Building Certification process and information in both languages, in Bangla and English and we are always available to answer your question, concern and inquiries (No need to wait for the visiting experts). We can train your project team on Green Building Concepts and USGBC LEED certification process.
- e **VEC** founded with the mission to promote and support Sustainable Development in Bangladesh. **VEC** strives to be the premier consultant and solution related services provider company in our chosen market. Experiences with innovative ideas will ensure comprehensive solution, higher quality standard and compassionate superior services to clients with honesty and integrity. **VEC** committed to deliver what promises, which will earn evoke trust among companies, consumers, employees and the community.

LEED Green ASSOCIATE

- e We have USGBC accredited professional Mr. Ananta Ahmed (LEED Green Associate, 1st in Bangladesh) with us to provide all the support and information needed. Mr. Ananta Ahmed has 12 years of experiences in Canadian Real Estate Market, Development Energy Efficient Homes in Canada and 4 years experienced in Bangladesh providing Green Building consultancy services.
- e Became exclusive partner and affiliated with 360 TSL which is renowned sustainable solution company to provide full range of Green Building Certification and Sustainable Development services in Bangladesh.
- e Now consulting number of companies with 30+ projects for LEED Green Building Certification in Bangladesh with the collaboration of 360 TSL.
- e Provides free initial consultation for new projects and free initial feasibility check for existing buildings and factories.
- e Provide you with information on Bangladesh Bank Green Financing Initiatives and can explain how to save on cost of loan (if needed).

- e Consulting fee is very compatible with quality standard services.
- e Will take full responsibility of certification process with support of project team and available all the time if needed.
- e Have the network with all aspects of building professionals who have knowledge and understanding Green Building and if needed **VEC** can be work under consortium to provide turnkey services.

VERITAS Engineering & Consultant Green Building Services include:

Green Building Certification Services:

Services to facilitate various Green Building Certifications such as those offered by us Green Building Council (LEED) and other Green Building certification authorities. This Building certification include;-

- e New Building (Commercial or Residential)
- e New Factory or Industry Building
- e Existing Factory or Building
- e Building Interior

Green Building Analysis and Simulation:

Services such as :

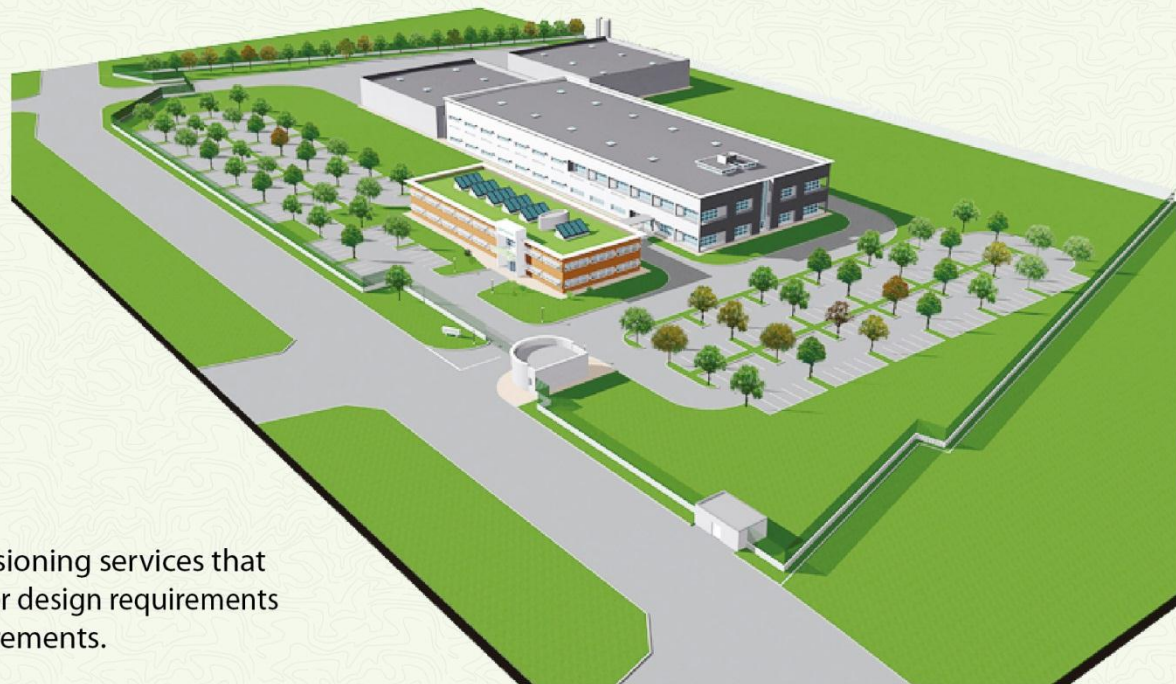

Energy Modeling and Simulation,
Daylight and Views Analysis,
Light Pollution Analysis.

Building Construction and Commissioning:

Fundamental and Enhanced construction and commissioning services that ensure that each system of the building is operating as per design requirements and to meet various Green Building Certification requirements.

Energy Audits:

Services for auditing the energy performance of existing buildings and provide feasibility study for Green Certification possibility and plan. The audits result in recommendations for changes in assets and operations that can deliver improved energy performance for the property and ensure indoor fresh air for occupant.

Structural Safety

Structural Safety is defined as the control of recognized hazards to achieve an acceptable level of risk. This can take the form of being protected from the event or from exposure to something that causes health or economic losses. It can include protection of people or of assets.

Service Provided by Structural Safety Department:

- e Structural and architectural design of RCC & Steel Structure.
- e Building Inspection and Testing.
- e Structural integrity assessment of existing buildings according to the standard of Alliance, ACCORD & National Tripartite Plan of Action (NTPA).
- e Preparation of factory load plan, machine layout plan, material test report and soil test report.
- e Detail Engineering Assessment (DEA) according to buyer requirement.
- e Destructive Tests (Core cutting) and Non Destructive Tests (Rebound hammer test, Ferro scanning and UPV Test) for RCC & Steel Buildings.
- e Design and retrofitting for existing RCC and Steel Structures.
- e Corrective Action Plan (CAP) management for structural safety according to the standard of Alliance, ACCORD & National Tripartite Plan of Action (NTPA).

Construction: RCC & Steel Structure

At a Glance our area of work:

- e Agro Based Structure.
- e Industrial Structure.
- e Commercial Structure.
- e Residential & Others.

Services Regarding Detail Engineering Assessment (DEA)

Scope of Works Involving in DEA:

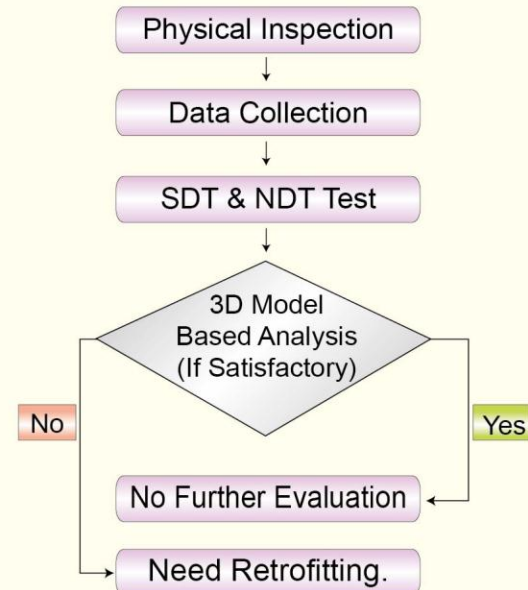

- e Document review.
- e Preparation/Modification of As-built drawing.
- e Sub-soil investigation to know about soil condition.
- e SDT & NDT Tests.
- e 3-D model based analysis.
- e Preparation of DEA/Design report with recommendation.
- e Load Plan Preparation.

Other Services Related to RMG Factory

- Design Report Preparation.
- Retrofitting Design, Drawing & Scheduling.
- Core Cutting.
- Ferro-scanning.
- UPV & Hammer Test.
- Design & Construction of new Factory Building (Steel & Structural).

Graphical Presentation of DEA

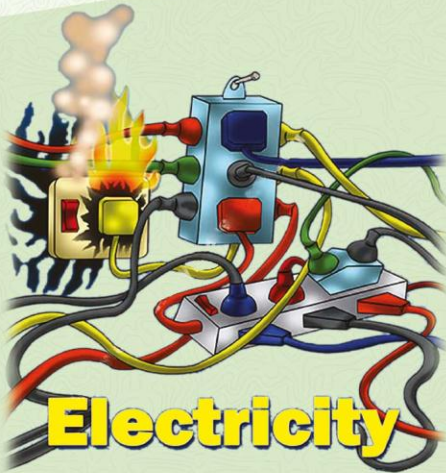

Electrical Safety

Electrical Safety Audit (ESA) is a systematic approach to evaluate potential electrical hazards and to provide suggestions for improvement. ESA is an important tool for identifying deterioration of standards, areas of risks or vulnerability, electric hazards and potential accidents in plants for determining necessary action to minimize hazards and for ensuring that the whole safety effort is effective & meaningful. With the rich experience of the industry, we are offering auditing services for Electrical Safety. The offered services help the clients in identifying potential electrical hazards to protect or minimize loss of life and property.

Electricity makes human life easy & comfortable but it can prove to be of high danger if circuits are not protected properly. Apart from property loss and equipment damage, electrical hazards may lead to fatalities and injuries to a person caused by electric shock and burns.

Service Provided by Electrical Safety Department:

- New factory installation as per standard & code.
- Provide as built and proper electrical Single Line Diagram (SLD), Electrical Layout Drawing (ELD).
- Calculating factory load we provide material estimation with installed electrical equipment.
- Thermographic Survey.
- Power Quality Audit.
- Insulation Survey.
- Switchgear and Protective Devices Survey.
- Electrostatic Grounding and Bonding Survey.
- Lightning Protection Design & Installation.
- Training on Electrical Hazards & Protection.

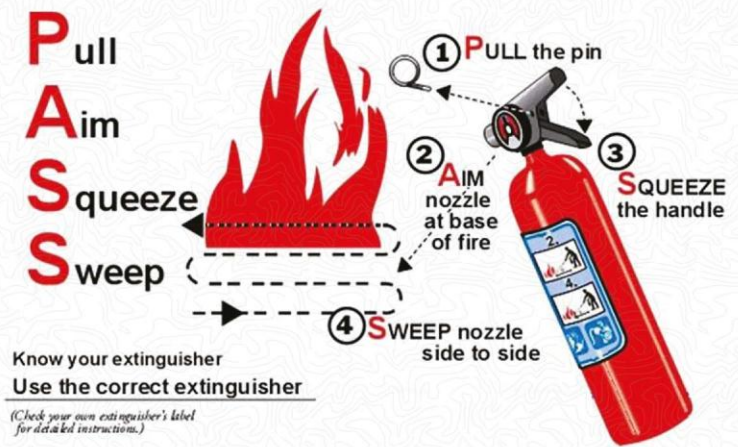

Fire Safety

Fire Safety measures are taken to reduce the risk of starting a fire and reduce the risk of injury of lives and properties.

Service Provide by Fire Safety Department:

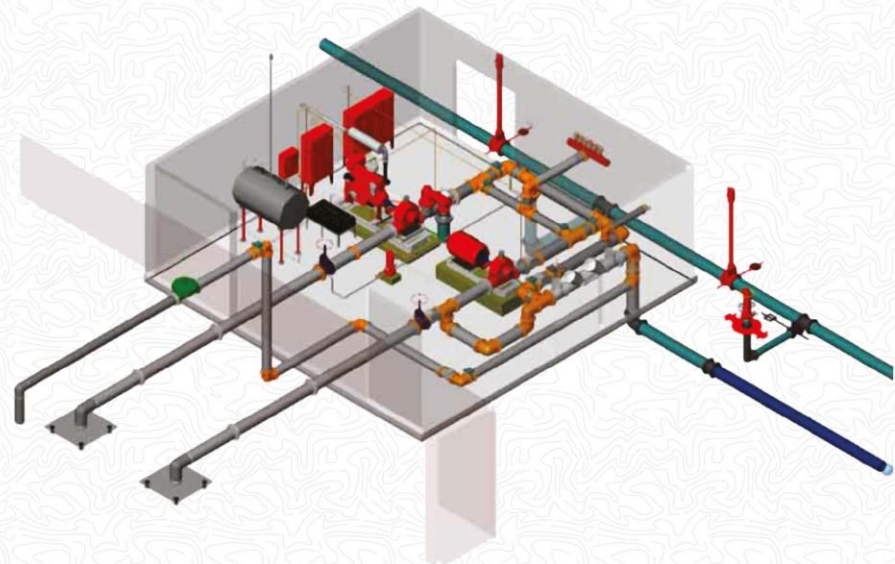

- Preliminary safety assessment according to National Tripartite Plan of Action (NTPA)
- Pre and detail assessment according to buyer requirement.
- Corrective Action Plan (CAP) Management for fire safety.
- Design and installation support for sprinkler system according to NFPA- 13, Accord and Alliance criteria.
- Design and installation support for fire alarm & detection system according to NFPA- 72 Accord and Alliance criteria.
- Design and installation support for hydrant system according to NFPA 14 Accord and Alliance criteria.
- Installation of stationary pumps for fire protection as per NFPA 20.
- Water requirement capacity analysis according to NFPA 22.
- Fire safety equipment inspection, testing and maintenance as per NFPA 25 and NFPA 10.

To operate an extinguisher:

Standards

- BNBC (Bangladesh National Building Code).
- BS 7671 (British Standard: Requirements for electrical installations).
- IEC (International Electro-technical Commission) NEC or NFPA 70 (National Electrical Code).
- National Fire Protection Association.
- NFPA 70E (Electrical Safety in the Workplace).
- OSHA (The United States Occupational Safety and Health Administration).
